To our families, parents and carers

Are you interested in training to become a Primary School Teacher?

We have Primary Initial Teacher Training vacancies now to start training from September 2025. We are looking for people who have a degree, a passion for education and teaching and want to inspire young people to fulfil their potential.

The teacher training programme is based in one of our wonderful DEEP schools for the majority of the training period with a second placement in a contrasting school setting. We welcome you to look around our schools or speak to the head teachers about what this opportunity can offer you.
